Accountability Standards

Any violation of university regulations or apartment complex policies and procedures may result in disciplinary action. Residents are responsible for all information published by University Housing Services and University publications.

At no time should a resident's behavior and conduct impair or prevent the University or University Housing Services from accomplishing or making progress toward their established educational goals.

Residents who are present during a policy violation, even if they are not directly participating in the violation, may be seen as consenting to the violation by the conduct process and University Housing Staff. If present when a policy violation occurs, residents should remove themselves from the area and report it to University Housing Staff immediately.

University Housing Services is committed to preventing disruptive behavior. The staff will work to identify any person(s) responsible for such a disruption should it occur. All students with information that can assist in this endeavor are encouraged to contact a University Housing Staff member or the Illinois State University Police Department. If and when necessary, a reward may be offered to the person(s) with information that leads to the arrest and conviction of the responsible person. Information about a reward being offered will be posted in the apartment complex.

Note: Staff members are not eligible to receive rewards, as it is the responsibility of all staff members to report information about incidents.

Apartment Behavior Policies

Access Policy

The exterior doors to the apartment complex buildings are secured at all times. Residents use their keys to gain access to their assigned building.

KEYS AND IDENTIFICATION

University Housing Staff has the right to ask anyone entering or inside of the apartment complex (resident or guest) to show proof of identification and residence. Residents are expected to have their Redbird ID Card and apartment/room keys in their possession at all times. Residents who are not in possession of their key(s) and ID may be documented for violating the Key and/or ID policy and must verify their residence and identity to remain in the building. All individuals who do not reside in the building must be escorted by their host at all times.

KEYS

Residents are issued a building key, apartment key, a bedroom key, and a mailbox key when they officially check into their apartment. These keys remain the property of the University and are loaned or licensed to residents only so long as they are the rightful occupant of the room to which these keys provide access.

Residents may not give or loan the keys to a guest or other residents nor should a resident be in possession of any apartment keys not specifically granted as authorized use by University Housing. Residents may only deliver, surrender, or relinquish these keys to a University Housing Staff member. Residents may not duplicate or modify their room keys. Residents must return their keys to a University Housing Staff member when they check out of their room.

University Housing Services: Fell and School Street Apartments

If a resident's key is locked in their apartment/room, the front desk can provide another key to the room for a limited length of time. If this key, along with the room/apartment key, is not returned within the specified period, the resident will be charged for a core change. If the resident loses their room key, they will be charged for its replacement. The cost of a core change may increase outside of regular business hours. A fee will be applied to a resident's Student Account after the third and every subsequent time they check out the spare key.

SPARE KEYS AND CORE CHANGES

If a resident has lost their keys, they have the following two options: Have an emergency core change done immediately at the cost of \$150.00 per lost key or receive a spare key now and only have a core change done if the spare key is not brought back by 8:30 a.m. on the next business day. Core changes cost \$75.00 per lost key. The business day is defined as Monday through Friday 8:00 a.m.-4:30 p.m.. If the lost key is located during the time that the spare key is checked out, both keys should be brought to the front desk prior to the conclusion of the specified time to avoid a core change and the resulting charges. The limited amount of time is noted on the Statement of Understanding that the resident signs when checking out the spare key.

Alcohol and Drug Policy

The possession and consumption of alcoholic beverages by residents and their guests who are 21 years of age or older is permitted within the confines of the individual resident's apartment. The use of alcoholic beverages on University premises is a privilege and may be allowed only if consistent with State laws and University policies.

The possession or using of drugs, regardless of age, is not allowed in University Housing Services Apartment Complex's or residence halls.

Assignment Policy

Requests for room changes cannot be made until after the tenth day of classes each semester. A request for a room change may be made through the Apartment Complex Coordinator. These requests may not be approved until residents have demonstrated a serious attempt to adjust to the room situation. The Roommate Bill of Rights (pdf) is used to ensure that residents have been making efforts to work through their disagreements. When requesting a room change, it is the resident's responsibility to provide the Apartment Complex Coordinator with the building name and room number of the desired room. When all Apartment Complex spaces are filled, only one-for-one room switches can be approved. One-for-one room switches must be approved by all involved roommates. Residents are responsible for officially checking out of their rooms when completing an approved room change. See University Housing Staff for further information.

Room changes not approved by the Apartment Complex Coordinator are in direct violation of Fell and School Apartment Policy.

The University reserves the right to assign apartments, to authorize or deny apartment and apartment-mate changes, to consolidate single student vacancies, and to require residents to move from one apartment to another.
